

## ABSTRACT OF THE DISCLOSURE

A working scheme reviewing and managing unit can display problems interfering with a working scheme to a plurality of staffs to realize the working scheme. The system includes: an itemized schedule storage means for storing schedules each associated with each of a plurality of work items to realize the working scheme; an individual schedule storage means for storing an individual schedule associated with each of the staffs in connection with the itemized schedules; an executed work report storage means for storing executed work reports each in connection with each of the individual schedules; a progress chart generating means for displaying a progress chart of the working scheme based on the itemized schedules and the executed work reports; an output means for outputting the progress chart generated by the progress chart generating means to display the progress chart according to a confirmation instruction for confirming a progress state of the working scheme; and a modification means for modifying at least one of the itemized schedules and the individual schedules according to a modification instruction based on the displayed progress chart. A working scheme reviewing and managing system has the reviewing and managing unit. The system also has a display unit that can be seen simultaneously by all the staffs so that the staffs can review the working scheme based on information indicated on the display unit. The indicated information is based on an output from the output means of the reviewing and managing unit.
